

# A BIG HELLO FROM SELECT DENTAL

## TO OUR NEW AND EXISTING PATIENTS

We last wrote to you in January to let you know of our exciting news about our relocation. We have now been in our Rolle Street home for almost 7 months and we couldn't be happier. We love being in the heart of the buzzing Exmouth town centre.

## OUR STORY SO FAR

Select Denture Centre first opened its doors in 1999 in Exmouth on Exeter Road by Denturist, Rob Gosling offering the services of a denture expert to Devon's denture wearers. Rob then expanded introducing general dentistry to Select in 2012 creating Select Dental and Denture Centre. After 20+ years in our humble 3 surgery abode, we wanted more and started looking into how we could grow further. So that's how we ended up here, taking over the old Barclays bank, building a modern 7 surgery practice for all your dental needs.

## WHAT'S NEW AT SELECT DENTAL?

Having a healthy mouth is essential. Not only to avoid unnecessary pain and embarrassing problems but to reduce the risk of dental disease and prolong your smile. Many practices in the UK are struggling to fulfill our dental needs. We are so pleased to be able to offer appointments to new and existing patients for routine care, emergency pain appointments and complex dental treatment all in a comfortable and calm environment.

## REFER A FRIEND

We love spreading the word about how to keep a tip-top mouth and if you do too, you and your friend can get 5% off with our 'refer a friend scheme'. Simply reply to this email with your friends name and we give you 5% off your next appointment.

# SELECT DENTAL

## WHO WE ARE

Supported by the best dental nurses, we have a team of highly skilled clinicians who work together to offer you the very best dental treatments tailored to you.

Have a question about your upcoming treatment? Our dental treatment coordinators Sam and Lara are on hand to answer any questions.

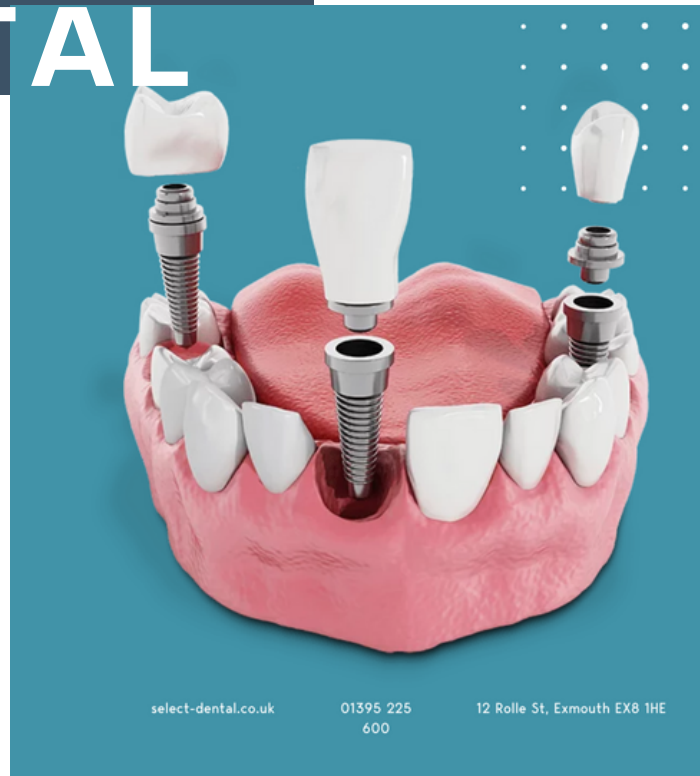

Our team of dental hosts are available on the phone or via email for all your appointment and enquiry needs.

## TEETH STRAIGHTENING

Teeth Straightening with Clear Aligners – Not happy with your crooked smile? Straightening your teeth does not only improve the aesthetics of your smile, it can also improve cleaning, jaw problems, speech and chewing problems and help with chipped teeth and restorations. With our state-of-the-art digital scanner we can show you what your teeth will look like after treatment before you get started.

## DENTAL IMPLANTS

No more missing teeth with Dental Implants. Whether you have one missing tooth or multiple gaps in your mouth dental implants are often the best solution, being the closest replacement to a natural tooth. Don't let the embarrassing food trapping and smile stopping gaps bother you anymore.

## TREATMENTS FOR YOU

From hygiene appointments to keep your gums in great condition, airflow polishing to remove those pesky stains, brilliant brushing advice for all ages, dazzling pearly whites with Enlighten whitening system, composite bonding to perfect your smile, toothwear and grinding solutions, tooth coloured composite fillings that blend in and look like your natural teeth, crowns bridges and veneers to secure, restore and replace teeth, Ruairi, Miro, Mahir, Veronica, Roberto, Ciprian and Michelle have treatment options for everyone.

For all your bespoke denture needs, Rob is supported by his skilled in-house laboratory team who design and make smiles every day.
